

I have been made aware of the possibility of losing the K-LOVE station that I listen to, due to the LPFM. K-LOVE has served me in my community for at least five years. It plays wonderful, wholesome christian music that my 7 and 10 year old boys can listen to without my having to be worried about bad language or bad messages. Most nights they listen to K-LOVE when they go to sleep. This local community would be terribly affected if K-LOVE were to be displaced by an LPFM broadcaster because it would mean one less station that is lifting up the name of Jesus Christ. Many people call in to the station for help in their personal lives. It would be a disservice to deprive people of the opportunity to be helped by this local station. I believe that this service provided by K-LOVE is in the public interest because they really try to help people. I have had someone from the station call me just to see how I am doing and to ask me if there was anything they could pray about for me. That is great!!! How many radio stations call their listeners and ask to pray for them? Not many. I want to keep this station in my community. I support K-LOVE monthly and pray for them. Thank you for your consideration in this matter. I pray that the Lord will give you wisdom in this matter.

Sincerely,
Cheryl Laine
